University of Alabama at Birmingham
*Proactive Approach to Dysphagia in Head
and Neck Cancer Patients*

Michael Pitman, MD

New York Medical College
*A Rat Model of Recurrent Laryngeal Nerve
Injury: Investigation of RLN Motoneurons*

Pamela Roehm, MD PhD

New York University School of Medicine
*Role of TrkB in Maintenance of Latency in a
Culture Model of Vestibular Neuritis*

The Triological Society has announced the funding of five research grants effective August 1, 2009. The five career development grants have been awarded in the amount of \$40,000 each for a period of one to two years. These awards will provide support for the research career development of otolaryngologists-head and neck surgeons who have made a commitment to focus their research endeavors on patient-oriented research such as clinical trials, translational research, outcomes research and health services research.

**The Society has
awarded \$2
million in grant
funds since 1994**
