The Triological Society continues to promote research into the causes of and treatments for otolaryngic diseases by providing financial support for the research efforts of young otolaryngologists. The Society annually awards \$400,000 - \$450,000 to otolaryngologist-head and neck surgeons in support of clinical and basic research and alternative science. The Society will offer funding in 2017 for the following grant programs:

- Research Career Development Awards for new investigators
- Clinical Scientist Development Awards (with the American College of Surgeons) for investigators who have a current K08 or K23 award

Grant Policies and Guidelines are available at www.triological.org
